## A Reader's Guide

This book is designed to have an overview of foreign patients' most visited medical institutions in Korea, as well as to check the full list of the registered medical institutions to attract foreign patients.

- I. The chapter, "Foreign Patients' Most Visited Medical Institutions in Korea," presents the list of foreign patients' most visited medical institutions based on the "2017 Statistics on Foreign Patient Attraction" by hospital type, medical specialty, medical condition, a patient's place of origin, and region in "alphabetic order."
- II. The chapter, "Details on the Most Visited Medical Institutions," features more detailed information on the most visited medical institutions by hospital type, medical specialty, medical condition, a patient's place of origin, and region. All information was submitted by medical institutions. We have excluded medical institutions who have refused to provide information in this chapter.
- III. In the chapter, "The Full List of the Medical Institutions Registered to Attract Foreign Patients," it is possible to find the full list of the registered medical institutions, which is sorted by city or province, in accordance with the "Act on Overseas Medical Expansion and Foreign Patient Attraction."
- IV. The chapter, "Why Medical Korea?" discusses the excellence, safety, and convenience of medical services in Korea while introducing the national policies that are related to foreign patient attraction.
